

2022 OFFER

Purchase options radio / television / online

STER: ADVERTISING WITH THE PUBLIC BROADCASTER

For 55 years already, Ster has been offering advertising options around the content of the Dutch Public Broadcaster (NPO) on television, radio and online. What can we do for you? Why should you choose Ster again in 2022? How can we optimise our offer for you?

UNIQUE IN MANY WAYS

Ster is the only advertising sales agency operating for the popular and trusted NPO networks. We reach everyone, at all times of day, but we do it in a slightly different way. We do not interrupt programmes with our advertising and there are only a limited number of advertising minutes per hour, increasing the impact of your campaign. There is also a strict division between the programme content and advertisements.

Since 2018 we have adjusted our policy: we offer fixed and affordable rates for everyone, the first and so far the only one in the world of media to do so. This way you know what to expect upfront, and we can get to the essence of it: how can we optimise Ster's offer in order to achieve your target(s)?

THE BEST OPPORTUNITIES FOR YOUR BRAND

The high-quality programmes by the public broadcaster are widely watched and listened to. They draw both a broad and narrow audience and reach a relatively large amount of "light" viewers, meaning people who watch a minimal amount of television. The programmes also receive high ratings. And high ratings work. Research shows that the higher the ratings of a programme, the bigger the impact of a commercial. At Ster we are always looking for the best opportunities to fit your brand. We engage daily with our clients and we can always offer customised advice.

THE POWER OF ADVERTISING

We believe in the power of advertising. A good message, connected to the right programming, achieves the target you envision and gets results. We know this because we have conducted decades of internal research on the effects of advertising and viewing and listening behaviour of the Dutch public. This is knowledge we gladly apply for your brand. In this way Ster strengthens every campaign - with insights, knowledge, quality and reach.

STER IN 2022

NO PREVIEW WITHOUT A REVIEW

As we look back on 2021, we see a strong NPO offer, and often excellent viewing and listening market shares. Big events like the European Football Championship and the Olympic Games, the very strong NPO programming, and also our own Ster Gouden Loeki broadcast, made great contributions. 2021 was also the year of the definitive return of the advertising icon Loeki de Leeuw. For the upcoming year we dare to forecast again: it will be a great year full of opportunities and success for your campaigns.

ON TO 2022

Loeki is not the only thing that is remaining in the new year. There are many wonderful events planned for 2022: the Olympic Winter Games, the women's European Football Championship,

the World Cup for men's football... and this is just a glimpse of what's on offer. An audience of millions is once again within reach. We're also looking forward to the launch of the National Media Research (NMO), where the integrated reach of television, radio, print and online media will be measured. A milestone: this builds the foundation for cross-media planning and evaluation of advertising campaigns.

With our approach, we will continue forward on the same path which we started in 2018, but we will return even more to the core next year: simplicity and transparency above all. The adjustments we make logically react to (market) realities.

In short: You can't miss Ster in 2022.

WHY ADVERTISE WITH STER?

AFFORDABLE RATES,
REGARDLESS OF BUDGET

INSIGHTS THAT
IMPROVE IMPACT

FOCUS ON THE
ESSENTIALS: ACHIEVING
YOUR TARGET(S)

REACH EVERYONE, EVERY MOMENT OF THE DAY

RADIO

NPO Radio 2 was the market leader in 2021 in the target groups 10+ and 25-67 amongst others.

There was also a positive increase in NPO Radio 4 en 5's market share.

The five radio stations from NPO had a collective listening share of 28.9% in the 25-67 age bracket target group. In 2022 we'll be offering a special purchase option for NPO Radio 2 and 3FM – so you can reach your 25-67 age target group at a competitive rate.

5.7 million

Dutch listeners per week via
NPO Radio 1, 2, 3FM, 4 and 5

TELEVISION

The NPO is open – for everyone and for each other – and you see that reflected in the programming. The diversity of programmes do not just attract the general public but also smaller target groups. The programmes have high viewing numbers and ratings. In 2022 we see trusted formats, returning hit shows and great new programmes.

We – with our transparent and affordable pricing – are also open to everyone. This is how you can soon reach your desired target group with Ster, each moment of the day.

12.7 million

Dutch viewers per week via
NPO 1, 2 and 3

ONLINE

NPO isn't just big on television and radio but also online. Everything that you see on television- and more- is also available on NPO Start, the associated websites and apps. This online space is available for campaigns from general public interest parties. You are then visible across the online portfolio of NPO with video advertising and/or banners. We - as the first agency in the Netherlands - do not use advertising cookies. The campaigns have continued to be at least as successful and this has even earned us the Dutch Privacy Award in 2021.

6.5 million

Dutch viewers per week via
NPO online video

4.3 million

Dutch viewers per week via
NPO online display

GENERAL PUBLIC INTEREST

Starting in 2022, the purchase options for charitable organisations are modified and will fall under the term 'general public interest'. A logical step - charitable organisations are general public interest, but at the same time the term is even broader: inclusive of institutions with a scientific, cultural, religious, philosophical, political or caring mission, which have a CBF approval or ANBI status.

For campaigns from such clients - with a non-commercial message - there's not just online options but also on radio and television. More information can be found at ster.nl/algemeennut.

Sources

Stichting KijkOnderzoek (SKO), Nationaal Luister Onderzoek (NLO), Nederlands Online Bereik Onderzoek (NOBO). Online bereik is berekend over de sites/apps waar desbetreffende advertentieproducten beschikbaar zijn.

In 2022 we will continue on the path we set out on in 2018. We have optimised our offer again this year. Below you will find an overview of the most important changes.

DISCOUNT ON VOLUME CONTRACTS

When signing a volume contract with Ster you receive a 2% extra discount over the volume agreed upon. This is an option from € 250,000 upwards. It is of course still possible to purchase campaigns without contracts. Investments over € 500,000 are also automatically entitled to our multi-media volume discount. The multi-media volume discount will then be a weighted percentage.

8% DISCOUNT ON FAIR SHARE

Ster will continue with the Logical Share in 2022. Again we reward a match between media behaviour and media buying. If 27% of your television campaigns and/or 23% of your radio campaigns are broadcasted by Ster, you will receive an 8% discount.

EARLY-PAYMENT AND SYSTEM DISCOUNT

The percentages for the early-payment and system discounts, as stated in the General Terms and Conditions, have been set at 0.5% each. The discount is calculated per medium type per order.

MULTI-MEDIA VOLUME DISCOUNT

Ster continues to offer multi-media volume discounts on the basic rate. The tiers are as follows:

- ▶ € 500.000 - € 1.000.000 = 4% discount
- ▶ € 1.000.000 - € 1.500.000 = 7% discount
- ▶ > € 1.500.000 = 9% discount

GUARANTEE ON RATE AND PRIORITY ON PLACEMENT

Campaign orders placed before the initial request deadline for the purchase period are given priority on the reservation of the advertising space. Furthermore, a market index of over 100 will not be applied to these campaigns. If the market index is lower than 100 you benefit from the price advantage.

SECURING CONTRACTS

Both Logical Share and Volume Contracts may be signed with retroactive effect until 1 April 2022. The discount then applies as of 1 January 2022. Of course, it still remains an option to purchase at Ster without a contract.

Terms and Conditions

The general and sales terms and conditions relevant for 2022 Offer can be found at ster.nl/terms_and_conditions.

SCORE BIG WITH ORANGE

What an enjoyable sports summer season we had. With images of a full, orange-clad Johan Cruijff ArenA and a record number of 36 Olympic medals still in our minds, we are preparing for 2022: a new, Orange sports year. And scoring with Orange, that's what you do with Ster.

BIG EVENTS, BIG REACH

This is what 2022 will look like. The Winter Olympics are scheduled in February, the European Women's Football Championship and the Tour de France in July, and the Men's World Cup in the last two months of the year. Make sure to have these events in your annual plans in order to be ready with your campaign. It offers an enormous reach, and the (high) rating of such tournaments reflects well on your brand.

If you are debating about creating a special Orangecampaign around sports or a sporting event, you would benefit from reading our whitepaper: "Advertisement creation: the power of customisation". There you will discover all the ingredients to make a meaningful, thematic commercial. And this is possible for any brand, big or small.

Have you come to the conclusion – whether or not from research – that it is better not to make an Orange-campaign? Then use your 'standard' commercial around the moment you had in mind. Campaigning always pays off: because by not doing so, you will be lagging behind your competition.

MORE THAN JUST SPORTS

You can score with Ster with more than just sports. Multi-media events such as The Passion, King's Day, the Eurovision Song Contest and the Top 2000 always attract millions of viewers and listeners. The latter even managed to reach 10.3 million Dutch people aged 10 years and older in 2020. That is 71% of the Netherlands!

With your campaign, you will score with Orange. And Orange - that's us.
ster.nl/scoormetoranje

DID YOU KNOW?

- ▶ Spots around the Olympic Winter Games score almost four times better than usual.
- ▶ Meaning your reach is about 80% of the Netherlands: more than 12.6 million people.
- ▶ During the Olympic Winter Games you reach up to 2x more young viewers than on a normal February morning.
- ▶ Studio Sportwinter received an average of 1.3 millionviewers in 2018.

THE STER CLIENT PORTAL

Do you already know about our Ster Client Portal? From campaign overviews to broadcast schedules, from direct campaign requests to invoices: the Ster Client Portal offers it all.

24/7 INSIGHT

As a user of the Ster Client Portal, you have real-time insight into all of your campaigns, access to a personal library where you can find all your materials and you can connect with our planners via chat with all your questions.

WORLD PREMIER FORECAST TOOL

Client Portal users can get a forecast of their campaign based on machine learning. The results of which will immediately give you insight into what your campaign can deliver in terms of reach and contact frequency. Before, advertisers and media agencies always depended on a software system for their forecasts or had to request campaign forecasts from an account manager. This was a time consuming and inefficient process. Our machine-learning forecasting tool eliminates that step: Not only do you have immediate insights, any changes in budget or spot length can also be processed immediately giving you an adjusted campaign forecast as a quick result. This is unique: Ster is the first agency worldwide to offer this for television and radio campaigns.

OPEN AND ACCESSIBLE

We believe it is important to make our media types as accessible as possible for as many brands as possible. On the one hand, through our transparent and unambiguous pricing structure, and on the other through innovations like the machine-learning forecasting tool. That is why we are constantly looking for ways to improve our service. Now campaign forecasts are immediately visible, making the application process more efficient. The system is free and intuitive to use.

AMMA AWARD

Thanks to our machine-learning forecasting tool, we were nominated for an AMMA Award in 2021 in the category of 'best media innovation'. In the end we walked away with a bronze AMMA. We were already proud of our industry-leading innovation and AMMA nomination, but recognition in the form of an award was the cherry on top.

Curious about the Ster Client Portal and everything it has to offer? Go to ster.nl/klantportal and sign up!
